Swaziland: social protection stakeholders

December 2005

National hunger and vulnerability inventories

These national inventories represent the initial stage of the national Knowledge Review and Gap Analysis (KRGAs) exercises carried out by RHVP in its six priority countries (Lesotho, Malawi, Mozambique, Swaziland, Zambia and Zimbabwe). In each country, the RHVP Country Coordinator (CC) is responsible for assembly, cataloguing, storage and retrieval of relevant documentary and data resources into a National Hunger and Vulnerability Inventory. This process is both backed up by, and feeds into, the RHVP Learning Network. The initial purpose of these inventories was to facilitate the KRGAs studies, but they also enable the CCs to disseminate rapidly, predominantly in electronic form, documents and data on hunger and vulnerability, and methods and policies for addressing it, to stakeholders requesting such information. This important function of the CC posts is central to RHVP's role of facilitating the spread of required knowledge within and between countries.

The separate national hunger and vulnerability inventories are as follows:

- An inventory of all existing food security, early warning and vulnerability related information systems and activities in the country, including details of methodologies used, institutional responsibilities, and frequency of assessments;
- An inventory of key policies and strategies related to hunger and vulnerability, food security and social protection in the country;
- An inventory of social protection programmes in the country;
- A register of institutions and individuals in the country with whom the RHVP can work in undertaking the activities of the Evidence and other components of the Programme;
- A bibliography, associated with a physical library/electronic filestore, of existing knowledge on the state of hunger and vulnerability in the country, including research reports, donor and NGO documents, documents or data produced by regional and international agencies, and websites containing knowledge on hunger and vulnerability in the country.

During the lifetime of RHVP, the CCs will be responsible for ensuring that relevant new materials and items of information are added to the inventory

as they become available, thus ensuring that the inventory's hunger and vulnerability resources are kept up-to-date.

At a later stage it is envisaged that the inventories will be more formally constituted into resources centres to be housed within an appropriate and relevant institution. In most cases it is envisaged that they will link up with one or another of the existing VACs, crisis response, or social protection agencies in each country, which would then assume responsibility for maintaining and managing the inventories after the end of RHVP.

User Guide

This document provides an inventory of key social protection stakeholders related to hunger and vulnerability, food security and social protection in Swaziland as at December 2005. Where available, the summary information for each stakeholder covers:

- institution
- contact name(s)
- address (comprising telephone/ fax number & email address where available)
- type of institution
- area of interest
